StormIntelligence™ · natural hazard data for insurance
(512) 504-3151 · stormintel@weatherguidance.com

STORMINTELLIGENCE™ FOR PROPERTY INSURERS

Verify the weather behind every claim.

StormIntelligence™ (StormIntel™) maps hail, wind, tornado and a wide range of natural hazards down to address level, refreshed about every 10 minutes during a storm and verified after.

6 of top 10	Hundreds	From $9.95	35+ yrs
U.S. property & casualty insurers served directly	of small and mid-size insurers across the U.S. and Canada	Per property report. Volume discounts available	Working with the insurance industry

Three ways to use StormIntel

Use one or combine them. Many carriers order reports and also run our data in-house.

1. Property reports

Send us addresses and dates through a simple online form, or in bulk as a spreadsheet or CSV. We run each one for hail, wind, rainfall, snowfall, lightning or the other perils you choose, and send back a finished report for the claim file.

2. Weather data API

Bring our hail, wind, tornado, rainfall and other weather layers into your own systems and answer questions yourself, from event history for one address to every swath across a state. GeoJSON, KML, shapefile or CSV. Priced by coverage area.

3. Interactive map and alerts

A StormIntel map subscription shows hail, wind and tornado swaths over your book of business, with alerts when hail or wind reaches the levels you set for ZIP codes or PIF locations. Priced by coverage area.

A trusted source: our data and reports are also built into leading insurance platforms, including Guidewire and Insurity/SpatialKey.

Option 1 in detail: property reports

One property and date range per report. Every report type has volume discounts.

Report	What it includes	Price
Basic Report	A table of weather events at the property and within 1, 2, 3 and 5 miles	**$9.95**
Forensic Report	A full written report with maps of the storm at the property	**$29.95**
Lightning Report	A written report with maps and data tables of cloud-to-ground strikes nearby	**$69.95**

Ordering and billing

01 Order
Online form for one property, or a spreadsheet or CSV for a batch, with the perils and dates.

02 We run it
We match our storm data to each address and send the finished reports to your team.

03 Pay your way
Invoice at the time of the order, paid by mailed check or EFT/ACH, or by credit card.

Perils and claim types

Hail · Wind · Tornado · Lightning · Earthquake · Wildfire · Smoke · Ice and Snowfall · Rainfall · Flood · Storm Surge · Slip & Fall · Power Outage
